

# create a hobby box

A hobby box is a box or basket full of things that is individualized for each kiddo. These items are not free access and only come from mom or dad (or guardian).

To access items in the hobby box your kiddo needs to accomplish a goal, such as finishing a chore. You can also have it handy when you know you're about to have to say "no" to something. For example: "no, we can't go to your favorite restaurant but we can get something from the hobby box"
