

Teaching Tips: Vacuuming

create a fun **CONNECT THE DOTS** game with cereal

HELPFUL TIPS

- parents put out the cereal
- make sure to use something that can be vacuumed easily
- make a game out of this and have a prize at the end
- to start: only put out a few pieces to vacuum and then build up to the entire room
- always start in the same part of the room
- always make the path the same
- once this task is mastered, start fading out cereal pieces until the task is only vacuuming, without the cereal.
