

My Family Has Coronavirus They Need to Stay Home

Someone in my house has Coronavirus.
I should not be scared.

Because of the Coronavirus, they will need
to stay home for two weeks.

Some things that are happening now...

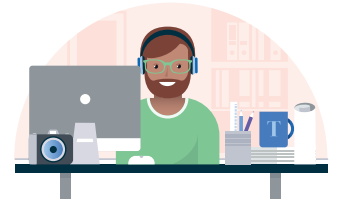

They may have to
wear a mask.

They will need
plenty of rest.

I will need to distance
myself from them.

They may be
working from home.

We can mark off the days they have to stay home.
