

My Family Has COVID-19

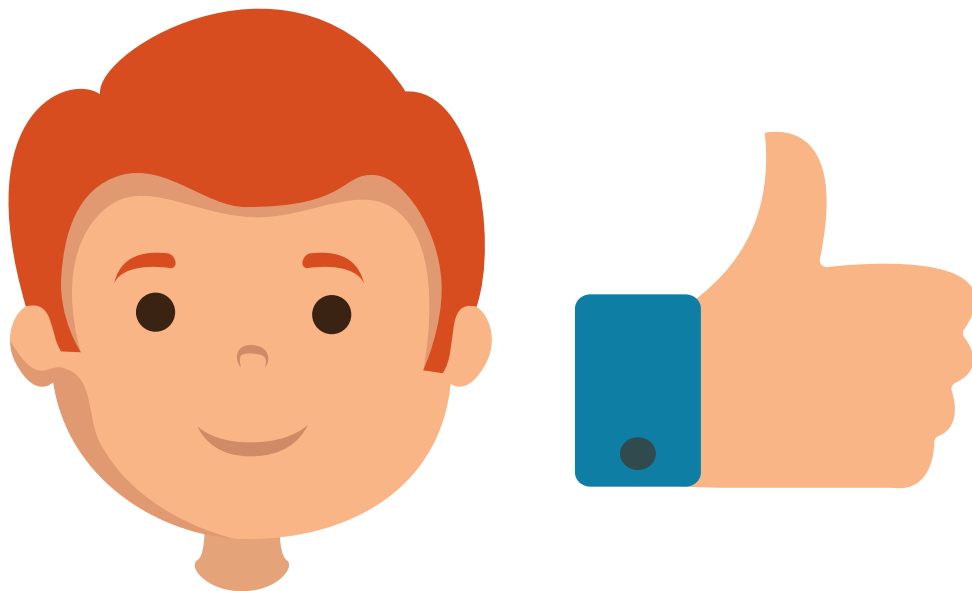

SOCIAL STORY

Someone in my house has
gotten sick with Coronavirus.

1

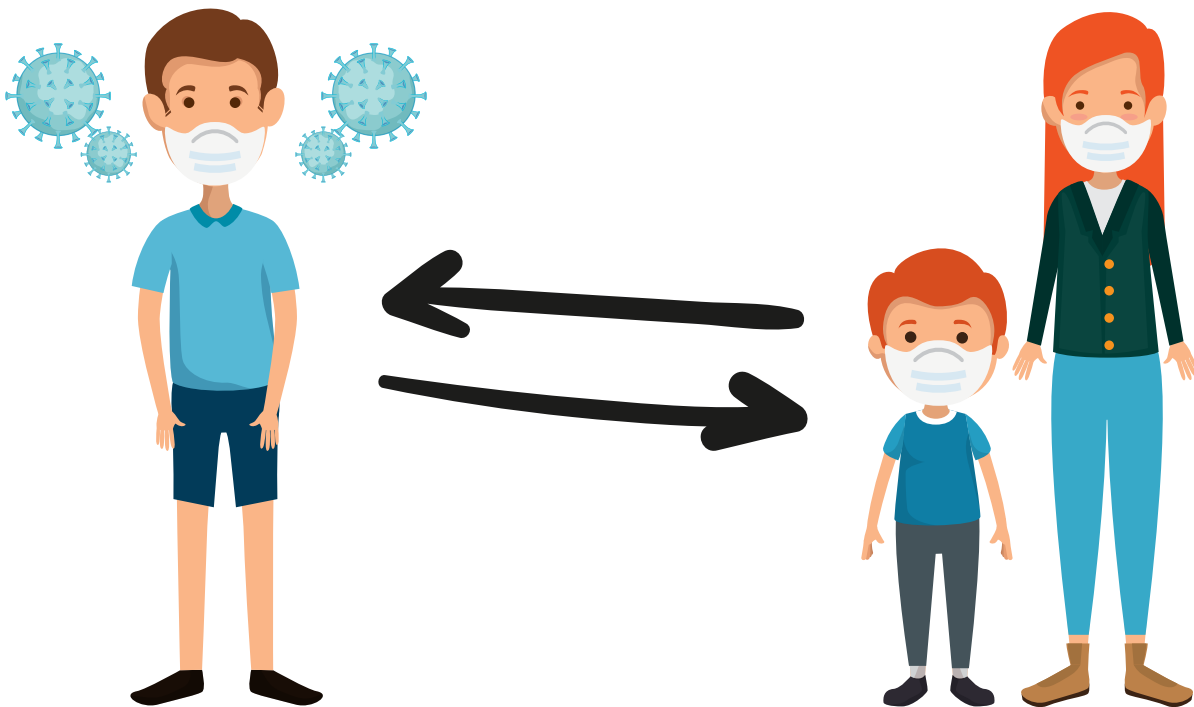

I don't need to be scared.

2

A doctor will help my family member get better soon.

3

I may need to stay 6 feet away from my family member.

4

I may need to wear a mask
around my family member.

5

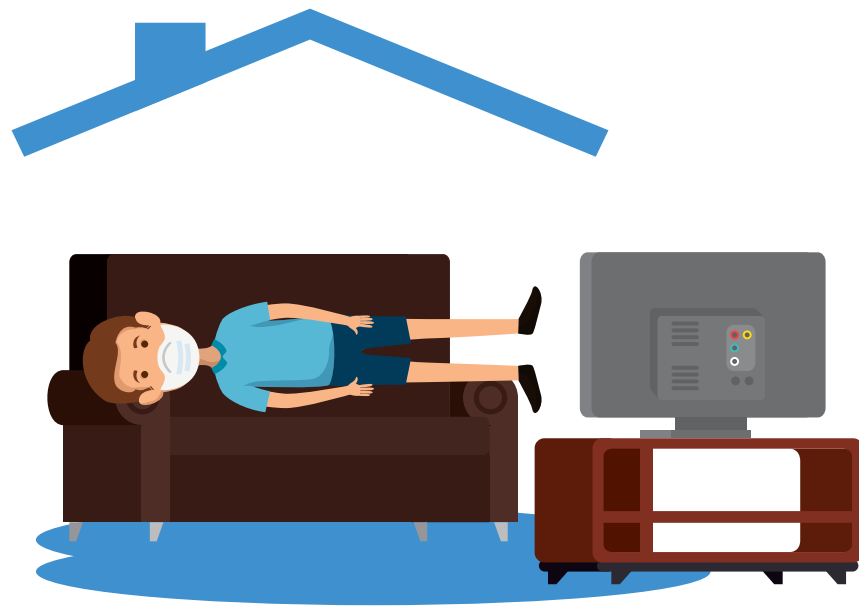

My family member may need
to stay home.

6

I might have to stay home too.

7

They might need to lay down and rest a lot during the day.

8

Even though I am healthy,
my school may be online or at home.

9

I may not get to do fun things I
normally do, like sports or dance class.

10

I can check off the days that me and/or my family member is quarantined.

11

THE END
