

# Teaching Guessing

It's OKAY not to get it right the first time

## GUESSING GAME RULES:

**Phase 1:** Put 3 different containers together. Select 3 of your kiddos favorite snacks (a small amount) and put them each candy in each container. Have your kiddo guess which one has one of the candies. **If correct**, they get to eat the candy. **If incorrect**, they still get to eat the candy that is in the container they chose **AND** they get to guess again! Once your kiddo guesses correctly say "Nice Guessing!"

**Phase 2:** Have 2 containers empty, 1 with candy. Have your child guess. **If they guess correctly**, they get the candy. **If incorrect**, they get to QUICKLY guess again.
