

Getting a Coronavirus Test

What's Happening Now?

The **Coronavirus** is a germ bug that makes people sick.

To keep myself, my family, and others safe, I have to go get tested for the Coronavirus.

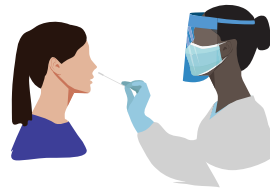

Some things that are happening now...

My mom or dad will make a doctor's appointment.

I will need to wear a mask.

They will put a Q-tip in my nose. It may tickle a little.

I will need to wait for my results.

Things I **CAN DO WHILE I WAIT...**

Things I **CAN'T DO WHILE I WAIT...**
